## Recent News & Investor Upstate

We'd like to WELCOME the following new Upstate investors: Roche Constructors, IntelliSource, OI (Owens Illinois) and Cureton Midstream. These industry leaders have joined our roster of partners, helping us to reach our highest level of participation in years - THANK YOU! Please check out our [Partner Investor Page](#) to support the companies and communities that help champion economic development throughout Upstate Colorado.

We also want to recognize the investment and support from Larimer County, as we continue to operate the Weld/Larimer Revolving Loan Fund and grow our regional partnership. We look forward to bringing new opportunities to our investors as we continue to facilitate projects in the region. As you set your plans for 2019 please contact us so we can further support your priorities. You can call me directly or email me at [rwerner@upstatecolorado.org](mailto:rwerner@upstatecolorado.org).

In this growing economy we're all feeling the labor pinch and Upstate is no different. We're currently seeking an operations manager to assist our very busy staff. [Click on this link for more information](#). Staff continues to focus on community support and deal flow in the region. To increase our capacity, we're pleased to welcome Audrey Herbison to our team. Audrey is an incredibly talented economic developer who joined Upstate late this summer. She'll serve our businesses, prospects and communities as an economic development manager along side our Senior VP, Cathy Schulte.

The volume of leads has certainly picked up this Fall and we want to thank our partners who have been involved in the process of getting comprehensive information back to these companies. The operational leadership between the private and public representatives allows us to continue to facilitate resources to meet the objectives of those looking to locate/expand within our Upstate Communities.

Finally, we'd like to recognize one of our long standing champions and

board member, Hans Jespersen, who in 2018 extended his board stay and duties to act as Chairman of our Board of Directors. Hans has stepped down from the chairmanship and returned to his primary role of leading Vestas, one of the regions largest employers, as they continue to grow. We can't thank Han's enough for his business insights, strong leadership and on-going support of Upstate! As with many of our employers, opportunities abound at Vestas and you can refer job seekers to <https://www.vestas.com/en/career>

If you are interested in getting involved or reengaged in our organization just [Click Here to drop us a note](#). We look forward to working with you.

## Community Highlight

### The City of Fort Lupton

Welcome to Fort Lupton! It is an actively expanding community, as are many of its fellow NOCO cities. The new 2018 Picture Fort Lupton comprehensive plan was adopted in June [Continue Reading](#)

## Private Partner Spotlight

Cureton is a Denver-based, growth-oriented midstream company focused on providing creative and transparent commercial solutions to oil & gas producers in the DJ Basin. Cureton was founded in 2016, and the management team brings substantial experience in engineering, constructing, and operating assets across the United States. Cureton is backed by Tailwater Capital LLC and ARES Management LP.

Cureton has installed 70 miles of gas gathering pipelines and has an additional 47 miles under construction in Weld County, Colorado. Cureton started processing gas on August 15, 2018, in advance of the permanent gas processing facility coming online, through temporary gas processing units. Cureton is building out a 60 MMCFD cryogenic processing plant and 20,000 horsepower of compression near Keenesburg, Colorado which is scheduled to be online by the end of November 2018.
